## PRE INSTALLATION REQUIREMENTS

1. Walls need to be prepared in advance, backing and sheetrock .
2. Electric needs to be ready with outlet before installation.
3. Some walls are not leveled, therefore we will make possible adaptations in order to install properly, minor repairs such as painting of the wall might be required after installation.
4. Accurate measurements of the wall where the unit will be installed is required.
5. Height of the floating drawers, to be determined by the client.
6. Contact person at the job site, second contact, building information or if residential .
7. Working hours: usually medium or large units take up to 48 hours.
8. Custom Design: drawings to be provided by the client/designer.
