

Flöge

With generous proportions and inflated shapes, the Flöge armchair conveys a creative freshness and a touch of luxurious retro style from the 70s. Like the sofa that also makes up the line, it offers a more relaxed seating experience, inviting relaxation.

The main highlight is the metal structure that surrounds the arms and backrest, creating a striking contrast between the softness of the upholstery and the rigidity of the metal. This visual division not only frames the piece but also reinforces its expressive identity.
