

## Modum

The Modum references the legacy of Marcel Breuer, pioneer of the Bauhaus and functionalist architecture. Its gently contoured silhouette articulates an expressive minimalism, where form and presence build an aesthetic of architectural character.

The stitching detail that runs along the arms and backrest reinforces the precision of the design, while the retractable seats expand the functionality of the piece. On the Modum, every element serves a clear purpose, sustaining the balance between structure, comfort, and visual identity.
