

Prouvé

Inspired by the thinking of Jean Prouvé, for whom form is born from structure and function, the Prouvé sofa reproduces that logic in a contemporary and precise design.

Its architecture reveals the balance between support and comfort: structured arms, a backrest that embraces the body, and a recessed base that creates a sense of lightness and float.

The Prouvé is an exercise in design where every line responds to a real need, resulting in a piece that is timeless, comfortable, and structurally intelligent.
